Week 3 - Core - Worksheet | Critical Evaluation & Informed Interaction - Iterating a Workflow and Explaining the Impact of Changes

Name: _____ **Class:** _____ **Date:** _____

Version log

Record each version of your workflow, the single change you made, and the result against your agreed criterion.

Version	Single change made	Result vs criterion (evidence)
1		
2		

Explain the impact

In full sentences, explain how your one change affected the result. Link the change to the impact and name your evidence.

_____

_____

_____

_____

Exit ticket

Name the single change you made and explain its impact on the result, citing one piece of evidence.

_____

_____

Challenge (stretch)

Challenge (stretch): plan a second iteration. Predict the impact of your next change, then say how you would test whether your prediction was correct - a step toward the Proficient outcome of designing and justifying a sequence of improvements.

_____

_____
