Week 6 - Integrated Task (Evaluate, Justify & Showcase) - Worksheet | Integrated Prerequisite Mastery Task - Design, Build, Evaluate & Justify an AI Solution

Name: _____ **Class:** _____ **Date:** _____

Score and improve

Score your workflow, make one change, and re-score. Show the evidence it improved.

Stage	Score (out of 6)	Change I made
Before		
After		

Risk and fix

Name one risk in your workflow and a responsible-use fix, and give your reason.

_____

_____

_____

_____

Four-skill reflection

Answer all three: the hardest skill and how you worked through it; one improvement you would make; one risk you would guard against.

Tool log - Pre-generated packs + improvement-move cards (integrated: improve, re-measure, justify)

Record as you work. Goal: A before-and-after score, a justified improvement, a risk check, and a readiness reflection.

Step	What I did	What I saw / result
1	Re-run the Week-5 solution and confirm the first score.	
2	Apply one improvement-move card that targets the weakest c	
3	Re-measure and compare with the first score.	
4	Draw a risk-scenario card and check your solution against	
5	Justify your improvement with evidence and complete the re	

Improve & justify

First score	Improvement move	New score	Evidence it helped

Safety check (tick): I used no personal data (no faces, voices or names). ☐

Exit ticket

Exit ticket - In one or two sentences, say why your solution is ready for the Grade 8 unit, naming one improvement you made and one risk you guarded against.

_____

Challenge (stretch)

Challenge - Evaluate your workflow against a second criterion - speed, usability or fairness - and describe the trade-off: what got better, what got worse, and why you would still choose it. This stretches toward the Proficient idea of evaluating solutions against more than one performance criterion.
